## Railway Series.

## Mexican Central Railroad Series.

Hesperia, the general manager of the Mexican Central Railroad, has secured the following excellent scenes:

Mr. Edison's photographers, has enabled us to lay before the public views taken in the heart of our great sister Republic.

6036 MEXICAN RUALES CHARGE 55 ft. B \$6.00  
Unframed  
6039 MARKET SCENE, CITY OF MEXICO 50 ft. B \$6.00  
Unframed

#### Atchison, Topeka & Santa Fe R. R. Series.

The enterprise and fame of Mr. Edison procured for his party many favors and concessions from the high officials of this railroad. The results are shown by the following odd and novel subjects not usually in the path of the regular tourist:

6037 OSTRICHES FEEDING 50 ft. B \$6.00  
Unframed  
6037a OSTRICHES RUNNING 50 ft. B \$6.00  
Unframed  
6038 DOGS PLAYING IN THE SNOW 50 ft. B \$6.00  
Unframed  
6039 CALIFORNIA LIMITED, A. T. & S. F. R. R. 40 ft. B \$5.10  
Unframed

#### Northern Pacific R. R. Series.

The following pictures were taken by our artists at various points on the Northern Pacific R. R. We are greatly indebted to the officials who afforded us every opportunity in their power to obtain these splendid views:

6121 WHITE HORSE RAPIDS 50 ft. A \$5.50  
Unframed

#### Rocky Mountain Panoramic Railroad Series.

One of our staff photographers having just completed a trip through the Dominion of Canada via the Canadian Pacific R. R., we list below a series of Rocky Mountain panoramic views of the highest photographic quality and unusual interest:

6206 ROYAL TRAIN WITH DUKE AND DUCHESS OF YORK CLIMBING MOUNTAIN 50 ft. A \$12.00  
Unframed  
6207 PANORAMIC VIEW, KICKING HORSE CANYON 150 ft. A \$9.25  
Unframed  
6208 PANORAMIC VIEW, LOWER KICKING HORSE CANYON 150 ft. A \$9.25  
Unframed  
6209 PANORAMIC VIEW, UPPER KICKING HORSE CANYON 150 ft. A \$9.25  
Unframed  
6210 PANORAMIC VIEW, LOWER KICKING HORSE CANYON 150 ft. A \$9.25  
Unframed  
6211 PANORAMIC VIEW, UPPER KICKING HORSE CANYON 150 ft. A \$9.25

Use numbers for mail orders

60

#### Terms.

Cash with order, or C. O. D. upon receipt of twenty-five per cent. of the amount of the purchase to guarantee transportation charges. Remit by Bank Draft, Post Office or Express Money Order, or Certified Check.

Goods delivered F. O. B. Orange, N. J. No charge for boxing or carting.

Edison Films are sold outright without territorial restrictions. We do not lease or rent films. We do not ship films on approval. We do not deal in second hand films, or take old films in exchange or trade.

All Edison Films are guaranteed to be of superior workmanship, and of the best quality of material.

#### Special Notice.

Use catalog numbers for mail orders, and code for telegraphic orders. Be careful to spell the code words exactly as printed. Wrong spelling causes confusion and delay in filling orders, and often necessitates telegraphing for further instructions.

#### Better Facilities.

Mr. Edison's latest discovery has made a complete revolution in our printing and developing departments. We now employ an entirely new process for making animated film subjects. The results surpass anything hitherto produced. The pictures when projected show great improvement both in clearness and definition.

#### Film Classification.

To counteract the effect of cheap films, duplications, inferior subjects, and short length films, Edison Films have been listed in two

61

classes. Some subjects cost large sums of money, while others are procured at a nominal cost.

The inexpensive films have been listed as Class B, at the net price of 12 cents per foot, while the more expensive subjects have been listed as Class A, at the net price of 15 cents per foot. The quality of Class B films is precisely the same as Class A, and the highest quality of material and workmanship obtainable is used in the manufacture of each film. The difference between the price of 15 and 12 cents per foot represents solely the difference in the cost of procuring the Original Negatives.

#### Film Coloring.

Coloring, when properly done, adds wonderfully to the effectiveness of many films, while inferior work only spoils a good plain film. There is as much difference in film coloring as there is between a beautiful water color picture and a cheap chromo.

While the artistic and mechanical skill are also largely necessary for this work, the composition of the colors themselves is a vital point. A great many colored films, instead of being bright and clear, have a faded or washed out appearance when projected upon the screen.

We have devoted a great deal of time and attention to perfecting our film coloring, and we are now prepared to furnish the highest class of colored and artistic hand work in bright, clear and appropriate colors.

The cost of coloring depends entirely upon the subject and the number of scenes to be colored, and is comparable to every general price.

Price quoted upon application.

#### Mono Tinting.

This is an entirely new process. It is covered by

Mr. Edison for tinting films. It is a chemical process, the colors are fixed and permanent, cannot be washed off, will not fade and will last as long as the film itself. The most beautiful moonlight effects are produced. Marine scenes and waves are given a naturalness almost beyond belief. While the body of the ocean is green or blue the breaking crests of the waves and spray are white, just as they are in nature. The most beautiful effects are produced in woodland and interior scenes. This process, which is an exclusive Edison feature, has been used with great success with the following headline films: "The Night Before Christmas," "The White Caps," "Life of An American Policeman," etc., etc. There is no extra charge for Mono Tinting films.

The usual method employed for tinting films is to put them through a solution of aniline dye. Red, green and blue are the colors mostly used. This is simply a cheap staining process. The colors are not fixed or permanent, can be washed off by water, and fade in a short time under the intense light of the Projecting Kinetoscope.

#### CAUTION.

Edison Kinetoscopes, Projecting Kinetoscopes and Films are covered by U. S. Patents No. 632,466, March 13, 1893; 586,068, August 31, 1897; 607,100, September 30, 1902; No. 1,000,000, and 1,200,000, January 12, 1904; No. 1,200,000, 688,648 and No. 688,649, December 10, 1901, and No. 714,815, December 2, 1902. The public is warned against purchasing or exhibiting infringing apparatus.

**Mr. Edison's System of Copyrighting  
Moving Picture Films Sustained  
by the Court of Appeals.**

The United States Circuit Court of Appeals at Philadelphia has decided that Mr. Edison's method of copyrighting films is legal, and that such copyright protects him from all infringements of that copyright by means of copying the whole or part of any film.

All Edison Copyrighted Films are sold subject to the restriction that they shall not be used for duplicating or printing other films from them. Any use of them for such purposes is an infringement of the patents under which they are made and sold. Patented August 31, 1897. Re-issued September 30, 1902, and January 12, 1904. All infringements of Edison copyrighted films will be prosecuted at once and stopped by injunction.
